

N-LINE FULLY AUTOMATED TRIMMING TO SORTING

The N-Line is a complete automation solution from GreenBroz. From trimming to sorting all while keeping your product perfectly intact.

HOLY ROLLER PRODUCE UP TO 3,000 OF THESE PER HOUR.

PRE-ROLLS

Call and ask about the most accurate pre-roll machine on the market and how to roll with us.

TRIMMING 4-30+ LB/HR*

Known for being the most gentle trimmer on the market. The Model M and M Lite continue to be the top choice for cultivators worldwide.

HARVEST BUCKET

The same gentle trimming but in a home grown trimming and bucking solution.

GRINDING + DESTEMMING 15 - 100+ LB/HR*

The G Class precision grinders are the first grinder + destemmer dual utility machines on the market. With variable grind sizes and a friction reducing design.

LEADING THE INDUSTRY FOR OVER A DECADE.

SORTING & EXTRACTION

Solvent-less dry sift extraction and size sorting are just a few of the solutions we have perfected while leading the industry for over a decade.
