

Sorter

Material Size Sorter

The Sorter allows to easily and quickly manage the size and bag appeal of your product. Rapidly increase your production by eliminating the time consuming task of hand sorting. Remove contamination touch points while maximizing your profits with this simple to implement material size sorter.

GENTLE

Low friction design means you can achieve your desired product size while maintaining efficiency.

ADJUSTABLE

With multiple size dividers, elevation settings, and bin dividers you can fine tune your sorting.

QUICK

With an integrated hopper and a high speed whisper quite motor easily sort 90lbs per hour.
