AMERICAN MADE, INDUSTRY BORN

THE START

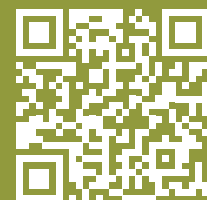

As growers our selves we understand the difficulties of harvesting. That's why for over a decade we have been committed to the cannabis industry. Developing leading harvesting solutions with cultivators, for cultivators.

THE PROMISE

Our harvesting solutions are made in America with American materials. All of our trimmers, grinders, extractors, sorters, and automation equipment, is engineered for reliability with a focus on being as gentle as possible. We know cannabis is a rapidly changing industry, we have been with you from the start, and will be here until the last harvest.

THE COMMUNITY

Without you and our community we would not be here. Join the growing community of 60,000+ growers, farmers, and cultivators who

READY TO HARVEST?

TRIMMING

NATURAL CLEAN.

TOUGH ON STICKY NOT ON YOUR FLOWER.

Resin clear is an industry standard cleaner for cannabis. Sticky blades? Or just looking to give your grinder a fresh coat, resin clear is here for you. Get your harvest running like new without contaminating.

8oz \$20

64oz \$150

EXTRACTION

420 ALCHEMIST 10lb

Turn your perfectly preserved trim into high-quality kief. Get the most from your harvest without the need for additives with this sleek, standalone extractor.

LEARN MORE

PURER EXTRACTS WITHOUT SOLVENTS.

215 ALCHEMIST 2.5lb

Table top trichome extraction perfected. Small and mighty, start your extraction journey with this tabletop extractor.

REDUCE WASTE

See your profits sky rocket as you turn your trim or other material in high quality solvent less kief.

MAXIMIZE PROFITS

Convert 15 - 25%* of your input material to solventless kief, dependent on material used..

STAY PURE

With food safe materials you can produce a pure product your customers have come to expect.

GRINDING

G CLASS GRINDERS + DESTEMERS

MODEL G 100 lb/hr*

The Model G is a continuous feed commercial cannabis grinder that enables operations to control their material size, remove stems, and preserve valuable trichomes. You won't find a better grinder for pre-rolls.

G LITE 15lb/hr*

The power of the Model G brought to the tabletop. The same precision control of your materials size, stems, and output put into a compact yet efficient package.

*Speeds on equipment depend on input material and operator skill.

DESTEMMING

Our G Class grinders not only precisely grind your product to your desired size. But they also remove unwanted stems, keeping your product as pur as possible.

CONFIGURE

With multiple screen sizes available and the ability to control speed and angle. You truly get the most precise grind.

HYGENIC

On top of being gentle, quick, and quiet, our grinders feature the same food safe materials you will find used in all of our designs. Reducing contamination and increasing your products value.

RISE-N-GRIND™ 300 lb/hr* FULLY AUTOMATED GRINDING + DESTEMMING

DUAL HOPPER

The integrated hopper of the Model G combined with the one from the Rise Conveyor means you have a constant feed of material maximizing revenue.

WANT SOMETHING CUSTOM?

Unique cultivations require unique solutions. Give us a call and we'll help you design your ideal set up.

REDUCE DOWN TIME, INCREASE REVENUE

MODULAR

Grind anywhere in your facility or reconfigure the setup to conform to your unique operation. The agile configurability of the Rise Conveyor allows it to work just about anywhere.

*Speeds on equipment depend on input material and operator skill.

MORE GRINDERS

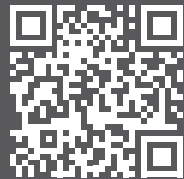

An aerial night photograph of an industrial facility. A central structure, possibly a cooling tower or chimney, is illuminated in a bright blue color and is emitting a thick, white plume of smoke or steam that spreads out on the ground. The surrounding area is dark, with some other industrial structures and lights visible in the background. The overall scene is dramatic and industrial.

**LEADING THE
INDUSTRY FOR
OVER A DECADE.**

SORTING

LEARN MORE

**THE ORIGINAL
CANNABIS BAND
SORTER.**

PRECISION SORTER

Rapidly increase your production speed and revenue over your current hand sorting setup. The open design of the sorter means you have full access to your delicate product.

SORTER TABLE

Fully configurable and food safe. Customize your output sizes while

HMI

Say goodbye to dials and fine tune your sorting with a digital touch screen.

GENTLE

Just like our other equipment the sorter is designed to keep you in control. From its open design to unparalleled configurability, we focus on keeping your product undamaged.

SIMPLE DESIGN, MASSIVE PROFITS

With adjustable size dividers, sorting tines, and speed control. You stay in control of your sorting and

**RISE-N-SORT™
FULLY AUTOMATED
CANNABIS SORTING**

300 lb/hr

QUICK AND GENTLE

The Rise Conveyor paired with the sorter allows facilities to rapidly increase sorting speed. The integrated hopper on the Rise Conveyor reduces excess storage points in your facility, reducing contamination further.

180X HAND SORTING.

Based on hand sorting speeds of 1.5lbs*per hr.

THE FUTURE OF CANNABIS HARVESTING.

STAY PURE

With food safe materials you can produce a pure product your customers have come expect.

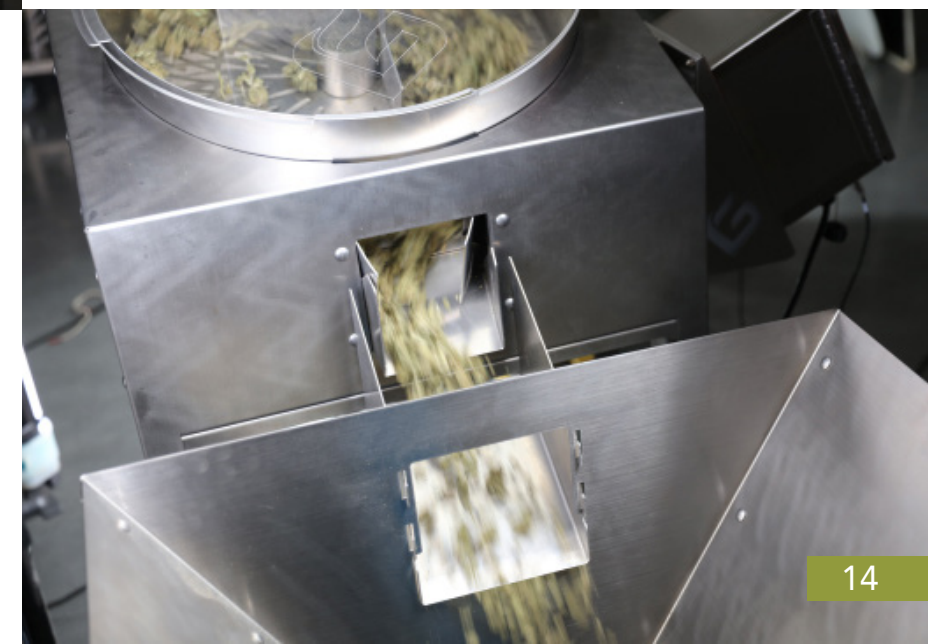

RISE CONVEYOR

5lb/min
\$18,499

This innovative conveyor makes it all possible. From its integrated hopper, high contrast belt, and programmable settings you can stay in control of your facility while gaining the advantage on your competition.

ALL AMERICAN, ALL IN HOUSE.

Our systems are designed to work together from the start. Each component and engineering aspect is deliberately chosen to ensure that the full system operates together. Meaning you have less headaches trying to make something work.

**OVER 3 DECADES OF
PACKAGING EXPERIENCE.
PRODUCE UP TO
3000 OF THESE
PER HOUR.**

PERFECT

Stop rolling by hand and throw out the shake trays. Blow away the competition by rapidly producing accurate and precise pre rolls, fine tuned to your ideal weight with the perfect density.

0.35 to 1.0g

Dial in your desired joint density, from 1/3 grams to full grams and anywhere in between.

THE HOLY ROLLER

PRECISE

The Holy Roller leads the industry with only a 5 degree weight variance.

1 LANE Up To 500 Per Hour

2 LANE Up To 1,500 Per Hour

4 LANE Up To 3,000 Per Hour

16x10x7

ACTIVE WEIGHING

Using precision weighing technology each pre roll is weighed 100s of times, reducing waste while increasing value.

AUTO TRIM

Precisely control how much twist you want to trim off ensuring your products shelf appeal.

ANTI CLOG

Friction reducing materials and free flow technology reduces time spent on maintenance and increases your time spent rolling.

TUNE

With a full color data oriented HMI cut out the fluff and take control over your investment. Fine tune everything from pre-roll weight to trim length. Its all under your control with support in person, on the phone or online.
