

Create strain specific recipes to let out any size bud, when you want.

Design perfect step by step recipes allowing you to trim bud sizes for desired times letting out trimmed buds as you go, reducing over trimming and letting you pre-sort by size.

GREENBROZ TRIMMERS CAN IMPROVE THC BY 6.92%

In a direct hand-to-machine trimming comparison of cannabinoid content from 3 different strains, GreenBroz dry trimmers come out on top. Increasing THC/A on average by 6.92% over hand trimming the same strain.

Save, Edit, Repeat

Edit per-strain trim settings to, letting you get same perfect trim everytime.

Plays Well With Others

Designed from the ground up to integrate with control and reporting platforms.

Increase Operator Skill

Have your trim operators spend time creating recipes that can be shared across your network of trimmers.
