DRY TRIMMER

GENTLE BY DESIGN

Trichomes, safe and sound

The top-loading and patented blade design on our trimmers, allows for the most gentle and controlled trimming of your buds.

CONTROLLED

Total Trim Control

GreenBroz trimmers allow users to work with the trimming machine, controlling speed, direction, and overall trim level.

PATENTED TRIMMING BLADES

Ditch the Barrel, Use a Blade

Our patented blade design mimics the diamond cutting pattern of scissors. Buds and trichomes stay intact while excess leaves are rotated down into the cutting edge.

**GREENBROZ TRIMMERS
CAN IMPROVE THC BY**

6.92%

In a direct hand-to-machine trimming comparison of cannabinoid content from 3 different strains, GreenBroz dry trimmers come out on top. Increasing THC/A on average by 6.92% over hand trimming the same strain.

Patented Trimming Blades

Featuring just a smaller version of our award winning trimming gentle trimming blades.

Dishwasher Safe

After trimming just toss the stainless steel blades and barrel into the dishwasher for easy cleanings.

Portable Trimming

Easily attaches to just about any 5 gallon bucket for easy carrying and to catch the trimmings.

High Quality Materials

Using only food safe materials that do not leech into your product like with harmful bud bowls.
