

M1 Base

DRY TRIMMER

GREENBROZ TRIMMERS CAN IMPROVE THC BY

6.92%

In a direct hand-to-machine trimming comparison of cannabinoid content from 3 different strains, GreenBroz dry trimmers come out on top. Increasing THC/A on average by 6.92% over hand trimming the same strain.

GENTLE BY DESIGN

Trichomes, safe and sound

The top-loading and patented blade design on our trimmers, allows for the most gentle and controlled trimming of your buds.

CONTROLLED

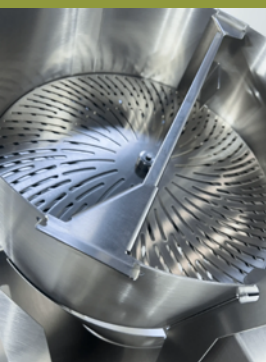

Total Trim Control

GreenBroz trimmers allow users to work with the trimming machine, controlling speed, direction, and overall trim level.

PATENTED TRIMMING BLADES

Ditch the Barrel, Use a Blade

Our patented blade design mimics the diamond cutting pattern of scissors. Buds and trichomes stay intact while excess leaves are rotated down into the cutting edge.

More Efficient Trimming

Larger edge-to-edge blade and center fin incorporate buds for a faster, more even trim.

GMP Compliant

Keeps your facility up to date with future regulations.

No Tools Needed

Designed for ease of use speeding up your trimming facility.

Tension Fit Design

Letting you take apart and clean the trimmer in minutes without plastic components.

- GMP Compliant
- Easy Clean Stainless Steel Surfaces
- Toolless Assembly & Disassembly
- Stainless Steel Cart
- Locking Casters
- Stainless Steel Shelf
- Whisper Quiet Motor
- Integrated Material Catch
- See-Thru Lid
- Directional Control
- Variable Speed Control
- Material Integrator
- Manual Bud Door
- Hot Swappable Blades
- Wash Down Ready
