

# M1

## Dry Trimmer

The M1 dry cannabis trimmer was designed with clean-ability and control in mind. Listening to community feedback we created a trimmer focused on being easy to clean and to use. With a tool free tension fit design and more efficient blade contact, the M1 is the trimmers best friend.

### QUICKLY CLEAN

The GMP compliant design of the M1 means you spend more time trimming and less time cleaning.

### TOTAL CONTROL

With a focus on control and ease of use, the M1 lets you stay in control of your trim the entire time.

### MEDICAL GRADE

316 Stainless steel throughout allows this trimmer to stay cleaner and last longer.

### ONE SCREW

Expertly designed and held together with one screw and tension.

### Toolless

No tools needed to rapidly disassemble the Model M1 to be cleaned.

### Clean

Quickly clean each component without worrying about rust.

### Quiet

Gentle on your flower and on your ears at only 60 - 67 decibels.

in / cm  
Height 51 / 129.54  
Width 32 / 81.28  
Length 29 / 73.66

### 1-2-3

Remove the blades in seconds, fully disassemble the M1 in under five minutes.
