

Model M

DRY TRIMMER

GREENBROZ TRIMMERS CAN IMPROVE THC BY

6.92%

In a direct hand-to-machine trimming comparison of cannabinoid content from 3 different strains, GreenBroz dry trimmers come out on top. Increasing THC/A on average by 6.92% over hand trimming the same strain.

GENTLE BY DESIGN

Trichomes, safe and sound

The top-loading and patented blade design on our trimmers, allows for the most gentle and controlled trimming of your buds.

CONTROLLED

Total Trim Control

GreenBroz trimmers allow users to work with the trimming machine, controlling speed, direction, and overall trim level.

PATENTED TRIMMING BLADES

Ditch the Barrel, Use a Blade

Our patented blade design mimics the diamond cutting pattern of scissors. Buds and trichomes stay intact while excess leaves are rotated down into the cutting edge.

HMI Digital Controls

Rapidly set and control trim trimmers, speed, and rotation keeping you in control.

Fully Stainless Steel Build

The Model M Dry Trimmer is made only from stainless steel, keeping you clean and compliant.

Edge-to-Edge Trimming

Large trimming surface and fins to aid the gentle trimming action.

Integrated Convenience

Quickly take apart and store the components on the adjustable shelf and blade storage.

- HMI Digital User Interface
- Variable Speed Control
- Adjustable Front Shelf
- Whisper Quiet Motor
- Forward / Reverse Direction Control
- Emergency Stop Button
- Adjustable Timer
- Heavy Duty Stainless Steel Stand
