

Precision Sorter

AUTOMATION

AUTOMATION CENTRIC

Increase production and throughput

With a focus on automation this sorter has features like a digital HMI, hoppers and integration support ready to attach to end of GreenBroz Trimmer or Rise Conveyor.

FOOD SAFE

Keeping buds free of harmful materials

We designed the sorter with food safe materials to keep your flower safe from contaminants and increase cleanable.

INCREASE BAG APPEAL

Increase consistency

Quickly sort by desired sizes to achieve a uniform bag appeal and distinguish your top shelf brand with unmatched consistency.

HMI Digital Controls

Easily setup bud sorting band and conveyor speeds all right at your finger tips.

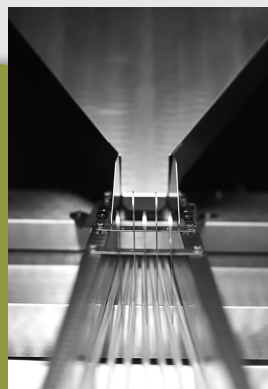

Configure Sorting Sizes

Easily configure bud sorting size using the stainless steel sectional dividers.

Precisely Sorted

Sort buds into your desired containers or into the Precision Sorter Table and achieve highly consistent bag appeal.

Large In-feed Hopper

Easily feed with its integrated stainless steel hopper or set up a Rise Conveyor for automatic feeding.

- Adjustable Conveyor Speed
- Adjustable Band Speed
- Integrated Material Hopper
- Adjustable Front Shelf
- Whisper Quiet Motor
- HMI Digital Interface
- Industrial Locking Casters
