

M+ TRIMMING SYSTEM

Fully Automated Machine Trimming

GREENBROZ

MACHINE DETAILS

The M+ is an intelligent trimming system capable of processing over 30 pounds of dried flower an hour without damaging trichomes or compromising the unique characteristics of your cannabis. The M+ employs an industry-first feeding system and customizable recipe control to enable you to standardize the trim of your flower across your organization.

- Trims: Up to 30 lbs./hour
- Hopper Capacity: 15 lbs.
- Automated Door
- Automatic Run Mode
- Programmable Recipes
- Forward/Reverse Control
- Adjustable Speed Settings
- HMI Digital User Interfaces
- System Weight: 415 Lbs. (188.2 Kg)
- Three-Year Manufacturer's Warranty
- Customizable Time Tracking Control
- Whisper Quiet / Washdown Ready Motors
- Units Feature Locking Wheels for Mobility
- Construction: Surgical grade 316 Stainless Steel, Food Grade 304 Stainless Steel, Aircraft Grade 6061- T6 Aluminum, HDPE, FDA Approved Thermoplastic
- System Power: 6 Amps, Voltage: 110 V, Hertz: 60Hz
- System Dimensions: 101" L x 41"W x 82" H (with tray)

**All GreenBroz machines can be made compatible with international power requirements*
