

N-LINE SYSTEM

Fully Automated Machine Trimming and Sorting

GREENBROZ

MACHINE DETAILS

The cannabis industry's first smart automatic trimming and sorting solution, the N-Line-System helps cannabis brands increase their processing speed, decrease trichome damaging human touchpoints, standardize quality, and lower labor costs. The system is fully automated and can be programmed with hundreds of recipes to meet your exact specifications for every cultivar you process.

N-Line

- Automatic Run Mode
- Programmable Recipes
- Adjustable Speed Settings
- HMI Digital User Interfaces
- Whisper Quiet / Washdown Ready Motors
- Three-Year Manufacturer's Warranty
- Construction: Surgical grade 316 Stainless Steel

Rise-n-Sort

- Sort 360 lbs./hour
- Sorting Sizes: Adjustable
- System Weight: 650 lbs.
- Dimensions:
 - Precision Sorter - 32"W x 49"H x 103"L
 - Rise Conveyor - 36"W x 63"H x 82"L
 - Sorter Table - 28"L x 33"H x 50"L
- Precision Sorter Unit Power
 - 110VAC, 60Hz 6A 660W (US)
 - 220VAC, 50Hz 3A 660W (International)
- Rise Conveyor Unit Power
 - 110VAC, 60Hz 3A 330W (US)
 - 220VAC, 50Hz 1.5A 330W (International)
- Sorter Table:
 - Capacity: Up to 15 Lbs.
 - Depth: 5.925"
 - Bin Sizes: Adjustable

M+

- Trim up to 30 lbs./hour
- Automated Door
- Automatic Run Mode
- Programmable Recipes
- Forward/Reverse Control
- System Weight: 415 Lbs. (188.2 Kg)
- Customizable Time Tracking Control
- System Power:
 - 6 Amps, Voltage: 110 V, Hertz: 60Hz
- System Dimensions:
 - 101" L x 41"W x 82" H (with tray)

**All GreenBroz machines can be made compatible with international power requirements*

FEATURES AND BENEFITS

1. ENGINEERED FOR GENTLE TRIMMING AND SORTING

The N-Line is designed to preserve the unique quality of the cannabis flower while processing pounds as fast as possible. Minimal drop points, no-vibration operation, and patented trichome-safe blades ensure your flower quality remains intact.

2. CUSTOMIZABLE

An intuitive touchscreen puts you in total control of your trimming and sorting. The system can be easily customized to your preferences and gives you the option to save your favorite formulas in the recipe section, making product standardization a breeze.

3. GENTLE ON FLOWER AND EARDRUMS

Unlike comparable industrial systems, the N-Line doesn't require a vacuum or blower to operate. That means your employees won't risk hearing damage when using the system.

4. MODULAR AND AGILE

The N-Line is comprised of four machines: the GreenBroz Precision Sorter, the M+ Dry Trimmer, and two Rise Conveyors. The machines do not need to be used in tandem. If desired, you can break up the set on the fly and use each machine independently of one another.

5. ELIMINATES HARMFUL TOUCH-POINTS

Reduced handling time by your staff ensures less contamination and preserves your flower's bag appeal.

6. MADE OF FOOD-GRADE AND FUTURE-PROOFED MATERIALS

All material used on the N-Line System meets GMP standard regulations to prevent microbial growth and minimize cleaning time.

7. EASY TO CLEAN

Stainless steel construction, IP65 washdown motor, and detachable electronics enable the N-Line to be broken down and cleaned fast, equating to less downtime and more flower processed.

8. QUICK

With the N-Line, a single operator can trim and sort your cannabis at unparalleled speed.

9. AMERICAN MADE

All our machines are designed and assembled by hand at our headquarters in Las Vegas, Nevada.
