## PRODUCT CATEGORY:

Dry Cannabis Trimmers

# MILLIONS OF BUDS AND THOUSANDS OF POUNDS TRIMMED AROUND THE WORLD.

## PRODUCT OVERVIEW

### Gentle Cannabis Trimmers

Our bud trimmers are known throughout the cannabis industry for two reasons, quality and control. Our design philosophy is to create a trimmer that you work with to fine tune your output. This approach is unique to our equipment and has earned us a reputation the most gentle marijuana trimmer.

Our patented trimmer designs are purpose built for the unique characteristics of cannabis. Unlike traditional barrel trimmers that create a uniform bud from over trimming. Our trimmers gently rotate buds at a controlled speed.

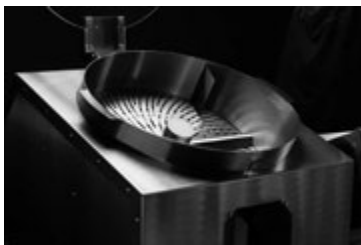

## PRODUCT FEATURES

### Perfecting the Cannabis Trimmer

**01** 316 Food Safe  
Stainless Steel

**02** Patented Gentle  
Trimming Blades

**03** Ultimate In Control  
and Usability

# PERFECTING THE DRY TRIMMER

## TESTIMONIALS

Company	Title	Testimonial
<b>THE CLINIC CO</b>	Chris Baca <i>Operations Manager</i>	The main reason we chose the Model M is how gentle it is on the product itself. This is going to free up a lot more of our crew for the drying process or the curing process
<b>GROW GENERATIONS</b>	Eric Singleton <i>Director of Harvesting</i>	[Model M] Its perfectly evolved its ready for regulations that aren't even in place yet.
<b>THE LAUGHING GOAT CANNABIS CO</b>	Fleuridas <i>Owner</i>	We only work with the very best because we care about our end product. GreenBroz has proven to be one of our best vendors. They always stay in touch and keep us up to date.
<b>KING BLOOM LLC</b>	Jarrod King	Our GreenBroz trimmer is vital to our business. We are a very small craft grower, and the Greenbroz trimmer allows King Bloom to even exist, since we couldn't afford to pay trimmers otherwise. We tried many trimmers and there is no comparison to how the Greenbroz trimmer protects the bud and gently removes the leaves. The product is indistinguishable from hand trimmed and every dispensary we sell to comments on the quality of our trimmed product.
<b>ROCKY MOUNTAIN HIGH</b>	Jimmy Winger <i>Post-production Director</i>	GreenBroz continues to adapt its products in an evolving industry helping businesses like ours focus on quality and speed. The model M trimmer's variable speed selection makes it easy to trim delicate strains without product loss. Cleaning the trimmer is also extremely easy with the detachable control box and full stainless-steel construction. We will continue exploring what GreenBroz has to offer in the future.
<b>IN THE FLOW</b>	Joshua Mortenson <i>Owner</i>	In The Flow is a small boutique cannabis company that was hand trim only. Since Covid, we were forced to seek other options. The GreenBroz model M has filled that void and there is really no difference between the quality of hand trimming and the Model M besides the amount of labor it has saved us. We couldn't be happier with this trim machine and plan on using it anywhere we expand moving forward.
<b>ELITE GARDEN</b>	Kelly Clenet <i>President</i>	The trim machines previous to this were a tumbler like your dryer all it does is knock your trichomes and destroy your flower. When we got a demo on these [Model M] it changed everything
<b>SMOKEY'S CANNABIS CO.</b>	Nick O'Leary <i>Cultivation Manager</i>	The GreenBroz Model M has allowed us to decrease post-harvest processing costs without sacrificing the quality of our living soil grown flower. We've eliminated countless hours of contract trim labor, all while preserving trichomes and maintaining bag appeal. This machine really does pay for itself!
<b>REDECAN PHARM</b>	Rick Redekop <i>Founder &amp; Master Grower</i>	The quality coming out at end was nice... it was better than hand trimmed. Our patients love it.
<b>EMPYREAL CANNABIS</b>	Scott <i>Head Grower</i>	Your machine is the best I've ever seen. The absolute best I've ever seen.

**USED ON THE LARGEST CULTIVATIONS FOR RESULTS PATIENTS LOVE.**

## TESTIMONIALS

Company	Title	Testimonial
<b>TRILL CANNABIS CENTERS</b>	David Threlfall <i>Founder &amp; CEO</i>	The GreenBroz [Trimmer] is by far the best we ever tested...
<b>TRILL CANNABIS CENTERS</b>	Demetrios	We started using the GreenBroz (trimmer) and pretty much the first time I fell in love with it because of how close it looked to hand trim.
<b>PUFFIN FARMS</b>	Dr. Jade <i>Founder &amp; CEO</i>	It's very gentle... We see great results with terpene retention...
<b>LOS SUENOS FARMS</b>	Ketch Degabrielle <i>Operations Manager</i>	We saved over 1,000,000 dollars using the GreenBroz trimmer. Not to mention the time we would need to keep our product before trimming it.
<b>OUTCO LABS</b>	Lincoln	I've looked at the numbers and it's an enormous advantage.
<b>THE CLINIC CO</b>	Mathher Stafford	It is the only trimmer that I will use. I've used plenty of other ones in the past, just demo'd them, and never had the results I did when I demo'd a GreenBroz.
<b>OUTCO LABS</b>	Rick	It's a real plus for us. It keeps the natural features of the flower intact. It's very gentle. I'm super impressed with the machine.
<b>FORBIDDEN FARMS</b>	Taylor Balduff <i>President &amp; CEO</i>	It's basically hand trimmed... The GreenBroz machines really helped with my success. Gave me a step above my competition.
<b>FORBIDDEN FARMS</b>	Taylor Balduff <i>Founder &amp; CEO</i>	It's so incredibly delicate. And it's quiet. That's one of the things I absolutely love about it, how quiet it is.
<b>HOUSE OF DARKNESS</b>	Unnamed <i>Processing Manager</i>	The GreenBroz is easy to say head and shoulders above anything else that I've ever worked with.
<b>FEEL BUDDER FARMS</b>	Lance Womach	The GreenBroz trimmer is the single best investment I have ever made in the garden. When you use it right there is nothing that can compare to it. In 3 years of using the trimmer, not one person in retail has ever asked me if the flower was machine trimmed, just lots of comments about what a nice trim it is.
	Unnamed	We have been using the M-lite for a few years now. We recently had an issue with the machine not turning on. My sales rep got me in touch with their tech support and they helped me trouble shoot the machine. I called at 12:15 pm and they had the new part on the way to me by 12:45 pm. The part arrived by 9 am the next morning. That's the kind of service we need in this industry. When you are down it costs time and money. We greatly appreciate the quick service. I recommend this machine to any one in the industry. It does reduce labor tremendously. Some strains you just need to touch by hand to finish it up. It keeps the bud in tacked and does not shave the weed and cuts down on hands fingering all your bud removing all the precious resin.
	Unnamed	Results may vary based on the quality, shape, and water content of your starting material. When the stars align, this machine is great! huge savings in trimming labor, the machine does about 80% in a couple minutes then we finish trim by hand. there is zero shaving of the buds with this technique and far less resin removed then by hand trimming. and it saves thousands in labor every harvest.
	Unnamed	It's a great trimmer. I could not live without one! Might be a little more [expensive], but it does a prettier trim and they are so tough. they might last forever.
